

Information about the contact ban:

The government has remitted a far-reaching contact ban on North Rhine-Westphalia by statutory order which comes into force from Monday (23rd of March, 2020). Therefore, meetings and aggregations are prohibited in public by more than two people. Relatives are excluded in straight line (parents and children), spouses, life partners and female life partners as well as in domestic community living people, the company of more needy people under age, compelling necessary meetings from business, professional and official as well as for reasons relevant for care and relevant for check. The use of the public transport remains allowed.

Very strict controls take place. The police, the ordinal velvet and the Central foreign authority food carry out a lot of controls in the whole city.

Who does not keep to the contact ban is punished very hard, it is worth a „zero tolerance politics against control breaker“, said Prime Minister Armin Laschet. Hence, a very high fine to 25,000€ is also possible with infringements.

Please, remain, hence, in the equipment! Thank you very much!
